PROJECTS

SGSITS Ask - Anonymous Class Doubt Platform | TypeScript, Vercel | anonymousclassdoubtssgsits.vercel.app
- Developed an automated, anonymous doubt-resolution platform using TypeScript, deployed on Vercel, with timetable-based scheduling that activates class discussion rooms dynamically.
- Optimized classroom workflow by enabling teachers to address aggregated anonymous queries 10 minutes prior to lectures, allowing students to ask doubts without hesitation.

MP DTE Lateral Entry College Predictor | HTML, JavaScript | github.com/Dev-Krishan-Kumar-Awasthi/lateralentrycollegepredictor
- Built a prediction tool that helps diploma students identify suitable engineering colleges for lateral entry.
- Analysed historical MP DTE counselling data to match student rank and category with colleges and branches.

Annapurna Daily Needs (Freelance, Beta) | Flutter, React, Supabase | github.com/Dev-Krishan-Kumar-Awasthi/annapurnadailyneeds
- Delivered a full-stack grocery delivery platform with a Flutter mobile app, a React admin dashboard and a Supabase backend.
- Integrated real-time order tracking and push notifications; built admin tools for menu management and live order handling.

Checkmate Pro - Online Chess Platform (In Development) | Flutter, Node.js, Socket.io | checkmate-pro-in.vercel.app
- Building a cross-platform chess app (Android, iOS, Web) with real-time multiplayer using Socket.io and Elo-based matchmaking.
- Developing an AI bot and Stockfish-based anti-cheat analysis as part of an active development roadmap.

Other Projects
- **QuickPassportPhoto** (Next.js, React, Tailwind, Supabase): Built an AI passport-photo tool with in-browser background removal and face cropping.
- **Anoop Rathore Portfolio** (JavaScript, GSAP): Developed an SEO-optimized portfolio website for a CSE educator.
- **Maharana Pratap School Website** (HTML, CSS, Particles.js): Created an SEO-optimized school website with a glassmorphism UI.
- **Buy/Sell Hub** (TypeScript): Built a local marketplace app for buying, selling and renting goods.
- **Personal Portfolio** (Three.js, GSAP): Crafted an interactive portfolio with 3D particle effects and scroll animations.
- **Web Apps** (TypeScript): Developed websites for Dr Atul Dhakar and GritLine Technologies.
